LS-NSSA/MnDRIVE

SUMMER RESEARCH INTERNSHIP

Thanks to a collaboration between the Louis Stokes North Star STEM Alliance (LS-NSSA) and Minnesota's Discovery, Research, and Innovation Economy (MnDRIVE), LS-NSSA scholars can participate in paid 8-week summer research internships with MnDRIVE faculty at the University of Minnesota.

Why apply?

- $4,000 stipend upon completion of the internship
- Four research areas to choose from: Robotics, Global Food Ventures, Environment, and Brain Conditions
- Opportunity to produce and present a research poster and paper at a symposium
- Work closely with renowned U of M faculty and cutting edge research labs and technology
- Housing stipend for scholars who do not live in the Twin Cities metro!
- Belong to a cohort of other LS-NSSA scholars from all over the state of Minnesota

Apply here, or to find out more details visit www.northstarstem.org.

Funded by the National Science Foundation and the 3M Foundation. Supported by the MnDRIVE partnership.
